## ABOUT

Software Engineer and Programmer with hands-on experience in building systems, automation tools, and real-time applications. Skilled in developing end-to-end solutions using modern technologies including Python, JavaScript, Supabase, and Cloudflare. Passionate about writing clean, efficient code and creating functional applications that solve real-world problems. Fast learner with strong problem-solving abilities and a solid foundation in software development principles.

## EXPERIENCE

### RDU / PROGRAMMER

2025-2026

#### WALTERMART SUPERMARKET

- Developed a QSCV (Quality, Safety, Customer Satisfaction, Value) Auditing System using Supabase, Python, and JavaScript
- Built a photo capture and upload feature to Cloudflare for storing audit evidence images
- Created a full auditing system to track and monitor items with issues, generating reports for management
- Managed receiving of items and input data into the computer system
- Conducted quality checks and flagged damaged or expiring products

### BPSU PROGRAMMMER

2021-2023

#### BATAAN PENINSULA STATE UNIVERSITY

- Developed a System for Internal Quality Audit
- Collaborated with team members to ensure project completion within deadlines
- Applied software development skills in a real-world setting, gaining hands-on experience
- Provided technical support for auditing events at BPSU
- Managed online events related to auditing, ensuring smooth operations

### CLERK / PROGRAMMER

2023-2024

#### SM APPLIANCE

- Developed a Customer Calling Delivery System - a digital list tracking customers with undelivered items
- Managed and updated customer delivery status using the system
- Monitored and organized pending deliveries, ensuring efficient dispatch operations
- Coordinated with customers to inform them about the arrival of their items
